1. Executive summary

The Aura Reset Center is a nervous-system-regulation wellness studio opening its Dubai flagship at 332 Jumeirah First, Jumeirah Beach Road, Jumeirah 1, in November 2026. It brings together eleven modalities across three pillars, Reset · Heal · Elevate, all on Elevé Health clinical-grade equipment. The Aura is Elevé Health's first partner clinic in the UAE.

The model combines pay-as-you-go visits (Single Reset) with two month-to-month memberships (Restore and Elevate), a founding-member programme for the first 100 members, and separately priced IV nutrient therapy. Every guest is guided by a Host from arrival to the last exhale.

The Aura began in Santa Ana, California, where it is open by appointment. A Dubai membership also works at the US location.

2. Concept

A recovery studio for the modern nervous system. The Aura is built on four commitments:

1. **The nervous system first** — every protocol starts by asking what state you arrived in.
2. **Clinical hardware only** — one supplier, Elevé Health, installed and serviced by their technicians.
3. **A host, not a receptionist** — someone who knows the modalities walks with you, every visit.
4. **Whole person, always** — body, mind, nervous system and spirit.

Every visit opens with a breathing ritual ("in for four, out for six"), and the Host tailors the protocol on the day. Contrast pairings (cold plunge with infrared sauna; compression with sauna or cryotherapy; salt cabin before float or breathwork) encourage multi-modality visits.

3. Market: Dubai wellness and longevity

- Dubai has a large, health-conscious resident and visitor population with strong demand for premium, experience-led wellness. Market size: AED [___] (source: [Source]).
- Longevity, recovery and biohacking services are growing among professionals, frequent travellers and fitness communities. Growth rate: [___]% (source: [Source]).
- Jumeirah 1 is a beachside residential and lifestyle district with high footfall from residents, villa communities and visitors.
- Competitive set: standalone cryotherapy and recovery studios, hotel spas, medical wellness clinics and gyms with recovery zones. [Competitor review to be completed.]

Our differentiation

- Eleven modalities under one roof, all on Elevé equipment calibrated to clinical spec.
- Host-guided sessions, not self-service.
- Nervous-system framing rather than a single-device offer.
- International membership that travels between Dubai and the US.
