1. Executive summary

The Aura Reset Center is a nervous-system-regulation wellness studio opening its Dubai flagship at 332 Jumeirah First, Jumeirah Beach Road, Jumeirah 1, in November 2026. It brings together eight Elevé Health machine modalities (one unit of each) plus Guided Breathwork and Sound Healing sessions across three pillars, Reset · Heal · Elevate, with every first visit starting in a consultation with one of our Healers. The Aura is Elevé Health's first partner clinic in the UAE.

The model combines pay-as-you-go visits (Single Reset) with two month-to-month memberships (Restore and Elevate), a founding-member programme for the first 100 members, Healer-designed personalised packages, refreshments and a small retail range. No medical treatments are offered at launch; IV Nutrient Therapy is a possible future service only, subject to DHA licensing. Every guest is guided by a Host from arrival to the last exhale.

The Aura began in Santa Ana, California, where it is open by appointment. A Dubai membership also works at the US location.

2. Concept

A recovery studio for the modern nervous system. The Aura is built on four commitments:

1. **The nervous system first** — every protocol starts by asking what state you arrived in.
2. **Clinical hardware only** — one supplier, Elevé Health, installed and serviced by their technicians.
3. **A host, not a receptionist** — someone who knows the modalities walks with you, every visit.
4. **Whole person, always** — body, mind, nervous system and spirit.

Every first visit starts with a Healer consultation that identifies the core problem and designs a personalised package or programme to regulate the nervous system and support energy healing. Every visit opens with a breathing ritual ("in for four, out for six"), and the Host tailors the protocol on the day and suggests combinations. Contrast pairings (cold plunge with infrared sauna; compression with sauna or cryotherapy; salt cabin before dry float, breathwork or sound healing) encourage multi-modality visits.

3. Market: Dubai wellness and longevity

- Dubai has a large, health-conscious resident and visitor population with strong demand for premium, experience-led wellness. Market size: AED [___] (source: [Source]).
- Longevity, recovery and biohacking services are growing among professionals, frequent travellers and fitness communities. Growth rate: [___]% (source: [Source]).
- Jumeirah 1 is a beachside residential and lifestyle district with high footfall from residents, villa communities and visitors.
- Competitive set: standalone cryotherapy and recovery studios, hotel spas, medical wellness clinics and gyms with recovery zones. [Competitor review to be completed.]

Our differentiation

- Eight Elevé modalities plus Guided Breathwork and Sound Healing under one roof, all equipment calibrated to clinical spec.
- A Healer consultation and personalised programme for every new guest.
- Host-guided sessions, not self-service.
- Nervous-system framing rather than a single-device offer.
- International membership that travels between Dubai and the US.

4. Target guests
