Brand Guidelines (Written Standards)

Document No. AUR-GOV-06 · Version 0.2 (Draft) · Owner: Founder & CEO · Effective: [Date]

> These guidelines apply to everything that carries the name The Aura Reset Center: signage, stationery, digital, social, print, merchandise, partner materials and team communications. Approval of any exception sits with the Founder & CEO (see AUR-GOV-02).

1. Brand essentials

Element	Standard
Brand name	**The Aura Reset Center** (always in full on first mention; "The Aura" thereafter)
Tagline	Nervous System Regulation
Pillars	Reset · Heal · Elevate (with middle dots, always in this order)
Descriptor	A recovery studio for the modern nervous system
Signature motif	The glowing amber aura ring

> "Aura Wellness Center" is an internal nickname only. It never appears on anything a guest, partner or authority will see.

The brand name keeps American spelling "Center" in all cases. Body copy uses British/UAE spelling (colour, centre, programme).

2. Logo

2.1 THE LOCKUP

The logo is a stacked lockup of four lines, centred:

1. THE
2. AURA
3. RESET CENTER
4. NERVOUS SYSTEM REGULATION

"AURA" is the dominant line. All lines are set in Marcellus capitals. The tagline line is the smallest and is letter-spaced. The aura ring may sit behind or around "AURA" in the primary version.

2.2 VERSIONS

Version	Use
Primary: Espresso lockup with Amber ring on Cream or Shell	Default for print, stationery, signage
Reversed: Cream lockup with Amber ring on Espresso	Dark backgrounds, night signage, social
Mono Espresso	Single-colour print, embossing, documents

Version	Use
Mono Cream	Single-colour on dark or photographic backgrounds
Short mark: AURA with ring	Social avatars, favicons, small merchandise, where the full lockup would fall below minimum size

2.3 CLEAR SPACE

Keep a clear space around the lockup equal to the height of the letter "A" in "AURA" on all four sides. No text, edges, images or other logos may enter this space. On signage the clear space is doubled.

2.4 MINIMUM SIZE

Medium	Full lockup	Short mark
Print	[__] mm wide (tagline line must remain legible)	[__] mm wide
Digital	[__] px wide	[__] px wide

If the tagline line becomes unreadable, use the lockup without the tagline or the short mark.

2.5 LOGO DON'TS

- Do not stretch, squash, rotate or skew the lockup.
- Do not re-arrange the four lines or set them on one line.
- Do not change the typeface or set the logo in lower case.
- Do not recolour outside the approved palette or add gradients other than the aura-ring glow.
- Do not add drop shadows, outlines, bevels or effects.
- Do not place the logo on busy photography without a calm, low-contrast area behind it.
- Do not separate "RESET CENTER" from "AURA".
- Do not combine the logo with another logo inside its clear space. Co-branding with Elevé Health follows section 2.6.

2.6 CO-BRANDING WITH ELEVÉ HEALTH

The Aura logo leads. Elevé Health appears as "Technology partner: Elevé Health" or with the Elevé logo at no more than [__]% of the height of The Aura lockup, separated by a thin Clay divider. Use of the Elevé name and logo follows the partner agreement and Elevé's own guidelines.

3. Colour palette

Name	Hex	Role	Typical usage
Espresso	#221913	Dark / ink	Logo, headings, dark backgrounds, night signage

Name	Hex	Role	Typical usage
Cocoa	#4A3A2C	Body text	Paragraphs, forms, documents
Taupe	#7A6753	Muted text	Captions, metadata, secondary labels
Bronze	#A6754C	Primary accent	Buttons, key highlights, links, icons
Light bronze	#C79A6D	Secondary accent	Hover states, fine rules on dark backgrounds
Amber "aura light"	#F0A968	Glow	The aura ring and its glow only; sparing highlights
Halo	#FFD3A0	Glow edge	Outer glow of the ring, soft highlights
Cream	#F2E7DB	Background	Default page and print background
Shell	#FBF5EE	Light surface	Cards, stationery paper tone, forms
Sand	#E8D7C5	Soft surface	Panels, table header fills
Clay	#DCC6B0	Dividers	Rules, borders, table lines

Colour rules

- Backgrounds are warm and light: Cream or Shell. Espresso is the only dark background.
- Body text is Cocoa on light backgrounds; never Amber or Halo for text.
- Amber and Halo are reserved for light and glow. Use them as accents, not fills of large areas.
- Do not introduce cool greys, blues, greens or pure black and white.
- Check contrast for accessibility on all digital text; Taupe is for secondary text only.

4. Typography

Typeface	Role	Use
Marcellus	Display	Logo, headings, titles, signage. Flared Roman capitals; generous letter-spacing in caps
Jost	Body and UI	Paragraphs, forms, tables, buttons, menus. Thin geometric sans; use Light or Regular for body
Caveat	Accent script	Signatures only, for example a handwritten "Eutemia" sign-off or a Host's note card. Never for headings, body or prices

4.1 HIERARCHY

Level	Typeface	Style	Example
H1 / page title	Marcellus	Caps or title case, letter-spaced	RESET · HEAL · ELEVATE
H2 / section	Marcellus	Title case	Four things we will not compromise on
H3 / sub-section	Jost	Medium, small caps or uppercase, letter-spaced	THE ELEVÉ STANDARD
Body	Jost	Light or Regular, comfortable line spacing	Every protocol starts by asking what state you arrived in.
Caption / metadata	Jost	Light, Taupe	20 min · Heal
Button / label	Jost	Regular, uppercase, letter-spaced	REQUEST A TIME
Signature	Caveat	Regular, Bronze or Espresso	With care, Eutemia

Fallbacks where the brand fonts are unavailable: a classic serif for Marcellus, a geometric sans for Jost. Keep text left-aligned for body copy; centre only titles, the logo and short statements.

5. The aura-ring motif

- The ring is a soft, glowing circle in Amber fading to Halo, suggesting breath, light and calm.
- Use one ring per composition. It is a focal point, not a pattern.
- It may frame the logo, a single word ("Reset"), or a calm area of a photograph.
- Keep the glow soft. No hard outlines, no rainbow effects, no animation faster than a slow breath (for example, a four-second in, six-second out pulse in digital use).
- Do not crop the ring so it reads as an arc unless the design is intentionally bleeding off the page edge.
- Do not use the ring to frame products for sale or prices.

6. Photography style

- **Light:** warm, natural or low amber light; glowing modalities (red-light bed, sauna, salt cabin) shown as calm light sources.
- **Mood:** stillness, the moment after; eyes closed, slow breathing, robes, Aura-branded towels, clothing and slippers, copper mugs of herbal tea, and quiet spaces.
- **People:** real, varied guests in Dubai; Hosts shown alongside guests, guiding, never selling.
- **Equipment:** Elevé units shown clean, calibrated and in use with a Host present; no clinical clutter.
- **Composition:** generous negative space in Cream, Sand and Espresso tones.

- **Avoid:** before/after images, needles in close-up, extreme cold-shock expressions, gym-style intensity, stock images of other venues, and any image implying a medical result.
- No clinical or IV imagery: The Aura offers no medical treatments at launch.
- Model releases are required for every identifiable person, in line with UAE privacy and data protection law.

7. Tone of voice

Calm, warm, precise, unhurried. Short sentences. Second person ("you"). Sensory but never hype. No medical claims.

Principle	Do	Don't
Calm	"Every visit begins with a breathing ritual. In for four, out for six."	"Get ready for the ultimate recovery blast!"
Warm	"Someone who knows the modalities walks with you from arrival to the last exhale."	"Our staff will process your booking."
Precise	"Filtered water held at 5 °C, always host-guided."	"Super cold water for amazing results."
Unhurried	"Arrive 10 minutes early, hydrated."	"Hurry, limited slots, book now!!!"
Second person	"Every protocol starts by asking what state you arrived in."	"Clients are assessed on arrival."
Honest	"Wellness services designed to support how you feel and function."	"Cures anxiety, insomnia and inflammation."
Sensory, not hype	"Fully clothed. Weightless on warm water."	"Mind-blowing, life-changing float experience."

8. Vocabulary

Use	Instead of	Note
Host	Therapist, receptionist, attendant (for guest-facing guides)	Our people who guide guests are Hosts
Healer	Therapist, doctor, consultant	Our holistic / energy-healing practitioners who run every first-visit consultation and design personalised packages
Guest	Patient, client, customer	Members are also guests
Session	Treatment, procedure	"A 40-minute infrared sauna session"
Reset	Fix, cure	"Build my reset"
Modality	Machine, device, therapy (generic)	"Eight Elevé modalities, plus Guided

Use	Instead of	Note
		Breathwork and Sound Healing"
Protocol	Programme of treatment	The sequence a Host tailors on the day; a Healer designs the personalised package
Studio	Clinic (in general marketing)	"Elevé Health's first partner clinic in the UAE" is permitted as the partner phrase
Supports, helps, may	Cures, treats, heals (as a medical claim), guarantees	Pillar name "Heal" is permitted as a brand term
Founding member	Early bird, VIP	First 100 Dubai members
Wellness session	Medical treatment, therapy (for hyperbaric)	Hyperbaric Oxygen is described as a wellness session [confirm licensing requirements for hyperbaric with DHA / licensing authority]. IV therapy is not offered at launch and is not marketed

Never write

- Medical claims or diagnoses, such as "treats depression", "cures inflammation", "detox your organs".
- Guarantees of results or timeframes.
- Prices in any brand or marketing material until approved: use AED [___] in drafts.
- Comparisons that name competitors.

Always keep the medical position wording where health is discussed: "Our modalities are wellness services designed to support how you feel and function. They are not a substitute for medical care."

9. Stationery

Item	Must include
Letterhead	Primary lockup; [Registered Company Name]; address of the issuing location; [Phone], [Email], [Website]; Trade License No. [Trade License No.]; TRN [TRN]
Invoices and tax invoices	All letterhead items plus the words "Tax Invoice", TRN, invoice number, date, VAT breakdown in AED, as required by UAE VAT rules
Receipts and membership agreements	[Registered Company Name], Trade License No., TRN, location address
Business cards	Short mark or full lockup; name; title (for example "Host", "Healer" or "General Manager"); [Phone], [Email]; address
Email signatures	Name, title, The Aura Reset Center, [Phone], [Website]; Jost; no images other than the short mark
Host note cards	Short mark; Caveat signature permitted

Item	Must include
Branded amenities	Short mark on robes, towels, guest clothing and hotel-style slippers; tone-on-tone in Sand, Cream or Espresso
Retail and packaging	Short mark on copper mugs, organic fragrances, wellness pillows and linen merchandise; prices shown only as approved, AED [___] in drafts

Stationery rules

- The trade license number and TRN must appear on all official stationery (letterhead, invoices, receipts, contracts, quotations) once issued. Until then, official documents are not printed in final form.
- The legal entity name [Registered Company Name] appears on official documents; the brand name appears on guest-facing materials.
- Paper tone is Shell or Cream; text is Cocoa or Espresso.
- Dubai stationery carries the Jumeirah 1 address; US stationery carries the Santa Ana address.
- Arabic versions, where required, are produced by an approved translator and reviewed before use.

10. Approval and review

Brand guidelines are owned by the Founder & CEO and reviewed annually or when a new location or partner is added. Questions go to the General Manager.

Name	Signature	Date
Founder & Chief Executive Officer	_____	_____
