Contraindications & Host Screening Checklist

Document No. AUR-FRM-03 · Version 0.2 (Draft) · Owner: General Manager · Effective: [Date]

> Guidance pending review. This checklist is a working draft. It must be reviewed by the [Medical Director named on the licence], approved by the General Manager and checked against Elevé Health protocols and manufacturer instructions for every unit before use [per Elevé protocol — pending]. Where Elevé guidance or a guest's doctor is stricter, the stricter rule applies.

How to use this checklist

1. Before every session, review the guest's Health Questionnaire (AUR-FRM-02) and today's daily check-in.
2. Find the modality section below. If any **absolute contraindication** applies, do not proceed. Offer an alternative modality and record it.
3. If any **medical clearance** item applies, the session goes ahead only with written clearance from the guest's doctor on file.
4. Tick every **pre-session check** before the guest begins. If you cannot tick a box, pause and ask the senior Host on shift or the General Manager.
5. Every visit begins with the breathing ritual: in for four, out for six. Use it to read the state the guest arrived in.
6. When in doubt, do not proceed. A Host is always entitled to decline or shorten a session.

> No medical treatments are offered at launch. Hyperbaric Oxygen is offered as a non-medical wellness session [confirm licensing requirements for hyperbaric with DHA / licensing authority]. Health questions beyond a Host's or Healer's scope are escalated to the General Manager, who refers to the [Medical Director named on the licence] for oversight. All machine settings and session limits are [per Elevé protocol — pending].

Guest name	Guest ID	Date	Host
_____	_____	___ / ___ / _____	_____

Universal checks (every modality)

☐	Check
☐	Health Questionnaire on file and less than [12] months old
☐	Daily check-in completed and signed today
☐	Relevant consent signed (AUR-FRM-04 and, where applicable, AUR-FRM-05)
☐	No alcohol or recreational drugs in the last 24 hours
☐	Guest feels well; no fever or acute illness

☐	Check
☐	Guest hydrated; water offered
☐	Guest knows how to stop the session and call the Host
☐	Equipment shows no fault; within Elevé service date
☐	First visit only: Healer consultation completed and personalised package noted

1. Whole-Body Cryotherapy (Reset · 3 min · Elevé E-CRYO PRO, to −110 °C)

Category	Item
Absolute contraindication	Pregnancy
Absolute contraindication	Uncontrolled high blood pressure (reading above [___/___] mmHg today)
Absolute contraindication	Recent heart attack, unstable angina, arrhythmia, heart failure or pacemaker
Absolute contraindication	Raynaud's phenomenon, cold urticaria or cold allergy
Absolute contraindication	Deep vein thrombosis, peripheral vascular disease or acute stroke history
Absolute contraindication	Acute fever, infection or open wounds; severe claustrophobia
Medical clearance	Controlled hypertension, cardiovascular history, diabetes with neuropathy
Medical clearance	Epilepsy, kidney disease, cancer, anaemia, hypothyroidism
Medical clearance	Guests under 18 (see AUR-FRM-06)

☐	Pre-session check
☐	Blood pressure taken and recorded: _____ / _____ mmHg
☐	Skin completely dry; no sweat, lotion or oils
☐	Jewellery, piercings, glasses and contact lenses removed where possible
☐	Dry gloves, socks, slippers, ear band and face mask (if used) on
☐	Underwear dry and cotton; no wet swimwear
☐	Guest briefed: keep moving, breathe steadily, step out at any time
☐	Thermal-vision monitoring active; Host stays in visual and verbal contact for the full 3 minutes
☐	Session time set (first visit: [___] min maximum) [per Elevé protocol — pending]

2. Red-Light Bed (Heal · 20 min · 660 / 850 nm)

Category	Item
Absolute contraindication	Photosensitising medication (for example, isotretinoin in last 6 months, some antibiotics)
Absolute contraindication	Light-triggered epilepsy or photosensitivity disorders (for example, lupus, porphyria)

Category	Item
Absolute contraindication	Active cancer or lesions in the treatment area
Medical clearance	Pregnancy
Medical clearance	Eye conditions (glaucoma, retinal disease)
Medical clearance	Thyroid conditions; recent cosmetic laser or peel

☐	Pre-session check
☐	Skin clean; no heavy make-up, lotion or self-tan
☐	Protective eyewear issued and worn
☐	No photosensitising medication confirmed
☐	Bed sanitised; timer set to 20 min
☐	Guest shown the stop control

3. Infrared Sauna (Heal · 40 min · 45–60 °C)

Category	Item
Absolute contraindication	Pregnancy
Absolute contraindication	Unstable cardiovascular disease, recent heart attack, severe aortic stenosis
Absolute contraindication	Alcohol in the last 24 hours; fever or acute infection
Absolute contraindication	Haemophilia or active bleeding
Medical clearance	High or low blood pressure; heart conditions; pacemaker
Medical clearance	Diabetes, kidney disease, multiple sclerosis, heat sensitivity
Medical clearance	Metal implants; silicone implants; recent surgery

☐	Pre-session check
☐	Guest drank water before entry; water bottle in cabin
☐	Temperature set: _____ °C (first visit: lower end of range)
☐	Session length set: _____ min (first visit: [___] min maximum)
☐	Guest briefed on signs to leave: dizziness, nausea, headache, palpitations
☐	Host check-in scheduled every [___] min
☐	If pairing with Cold Plunge, order and rest interval agreed

4. Hyperbaric Oxygen (Heal · 60 min · 1.3–2.0 ATA) — wellness session

> Offered as a non-medical wellness session [confirm licensing requirements for hyperbaric with DHA / licensing authority]. Senior Host sign-off required before every session. Any medical-clearance item needs written clearance from the guest's doctor on file.

Category	Item
Absolute contraindication	Untreated pneumothorax (collapsed lung)
Absolute contraindication	Certain chemotherapy agents (to be confirmed with the Medical Director named on the licence)
Absolute contraindication	Pregnancy
Absolute contraindication	Acute cold, sinus congestion or ear infection; perforated eardrum
Absolute contraindication	Implanted devices not rated for pressure
Medical clearance	COPD, emphysema, asthma or history of chest surgery
Medical clearance	Epilepsy or seizure history; uncontrolled fever
Medical clearance	Heart failure, uncontrolled high blood pressure, diabetes on insulin
Medical clearance	Claustrophobia; recent ear or sinus surgery; eye conditions

☐	Pre-session check
☐	Senior Host review completed and signed (below)
☐	Guest taught ear-equalising technique
☐	No flammable items, lighters, electronics, oils or hair products in chamber
☐	Cotton clothing only
☐	Pressure set: _____ ATA [per Elevé protocol — pending]
☐	Two-way communication tested
☐	Host remains at control panel for the full session

Senior Host name	Signature	Date / time
_____	_____	_____

5. Compression Recovery (Heal · 30 min · 7-zone boots)

Category	Item
Absolute contraindication	Known or suspected deep vein thrombosis or blood clots
Absolute contraindication	Congestive heart failure; pulmonary oedema

Category	Item
Absolute contraindication	Acute infection, open wounds, fracture or acute injury in the legs
Medical clearance	Pregnancy
Medical clearance	Peripheral vascular disease, diabetes with neuropathy, lymphoedema
Medical clearance	Anticoagulant use; recent surgery

☐	Pre-session check
☐	No leg pain, swelling or redness reported
☐	Correct boot size fitted
☐	Pressure set: _____ (light / medium / firm)
☐	Guest shown how to pause or stop

6. Dry Float Bed (Reset · 30 min · fully clothed)

Category	Item
Absolute contraindication	Acute illness or fever
Medical clearance	Pregnancy (later stages)
Medical clearance	Heat sensitivity; recent back or abdominal surgery

☐	Pre-session check
☐	Sharp objects removed from pockets
☐	Water temperature checked [per Elevé protocol — pending]
☐	Guest positioned comfortably; stop control shown

7. Salt Cabin (Reset · 30 min · E-Salt Cabin: salt air, red light, oxygen, aromatherapy)

Category	Item
Absolute contraindication	Active tuberculosis; acute respiratory infection with fever
Absolute contraindication	Severe uncontrolled asthma or COPD
Absolute contraindication	Open wounds or bleeding
Medical clearance	Asthma; COPD; high blood pressure; heart conditions
Medical clearance	Pregnancy; cancer; claustrophobia
Medical clearance	Photosensitivity (red light); essential-oil allergy (aromatherapy)

☐	Pre-session check
☐	Inhaler (if used) carried in by guest
☐	Aromatherapy: ☐ on ☐ off (per guest preference)
☐	Oxygen and red light settings confirmed per Elevé protocol
☐	Cabin sealed and communication tested

8. Cold Plunge (Reset · 2–5 min · 5 °C · always Host-guided)

Category	Item
Absolute contraindication	Pregnancy
Absolute contraindication	Heart conditions, arrhythmia, pacemaker, uncontrolled high blood pressure
Absolute contraindication	Raynaud's phenomenon, cold urticaria
Absolute contraindication	Open wounds; alcohol in last 24 hours; epilepsy not controlled
Medical clearance	Controlled high blood pressure; diabetes; asthma
Medical clearance	Recent surgery; anxiety or panic disorder

☐	Pre-session check
☐	Water temperature: _____ °C; filtration log checked
☐	Guest briefed on cold-shock breathing: long, slow exhales
☐	Host present at the plunge for the full immersion; timer set: _____ min
☐	Entry and exit points clear; towel and robe ready
☐	First visit: [___] min maximum; head stays above water

9. Guided Breathwork (Reset · 45 min · 1:1 or small group)

Category	Item
Absolute contraindication	Recent heart attack or stroke; uncontrolled epilepsy (for intense techniques)
Medical clearance	Pregnancy (no breath-holding or rapid techniques)
Medical clearance	High blood pressure; heart conditions; glaucoma; recent surgery
Medical clearance	Panic disorder, PTSD or serious mental-health condition

☐	Pre-session check
☐	Technique chosen to suit today's state: _____
☐	No breath-holds for guests with cardiovascular or pregnancy flags
☐	Guest told they may return to normal breathing at any time
☐	Never practised in or near water

10. Sound Healing (Elevate · [__] min · 1:1 or small group, up to [__] guests)

Category	Item
Absolute contraindication	Acute ear infection or recent ear surgery
Medical clearance	Epilepsy or seizure history (sound or vibration triggers)
Medical clearance	Tinnitus, hearing aids or sound sensitivity; pacemaker or implanted device (instruments placed on or near the body)
Medical clearance	Pregnancy (no instruments placed on the abdomen); serious mental-health condition or PTSD

☐	Pre-session check
☐	Volume and instruments chosen to suit today's state: _____
☐	Guest asked whether instruments may be placed on or near the body: ☐ Yes ☐ No
☐	Guest told they may ask for quieter sound or stop at any time
☐	Mat, cushions and blanket in place; guest fully clothed

11. Healer Consultation (first visit · [30–45 min proposed])

Category	Item
Note	The consultation is a holistic, non-medical conversation. Healers do not diagnose or treat medical conditions.
Escalate	Any symptom or answer that warrants a conversation with a doctor is flagged to the guest and the General Manager

☐	Check
☐	Healer has reviewed the Health Questionnaire before the consultation
☐	Core issue and goals recorded: _____
☐	Personalised package agreed and handed to the Host:

☐	Check
	_____
☐	Any modality exclusions from this checklist reflected in the package
