Healer Consultation & Package Design SOP

Document No. AUR-SOP-04 · Version 0.1 (Draft) · Owner: General Manager · Effective: [Date]

> This SOP is a working draft. The Healer assessment method in section 6 is to be described by the Healing team and approved by the General Manager before use.

1. Purpose and scope

Every guest's **first visit** to The Aura Reset Center starts with a consultation with one of our **Healers**. Healers are energy-healing and holistic practitioners on our team. They identify the guest's core concern and design a personalised package to support nervous-system regulation and energy healing.

This SOP covers how a Healer prepares for, runs, documents and follows up the consultation. It applies to all Healers (number of Healers: [__]) and to the Hosts who hand guests to and from the Healer.

2. Boundaries — read first

- Healers are **not** medical practitioners. They do **not** diagnose, treat or prescribe, and never suggest a guest stops any medication or medical care.
- Our modalities are wellness services designed to support how a guest feels and functions. They are not a substitute for medical care. We always flag anything that warrants a conversation with the guest's doctor.
- **No medical treatments are offered at launch.** IV Nutrient Therapy is not offered. Do not recommend or promise it.
- Hyperbaric Oxygen is offered as a non-medical wellness session [confirm licensing requirements for hyperbaric with DHA / licensing authority].
- Medical questions go to the guest's own doctor. Concerns about our protocols on medical grounds go through the General Manager to the [Medical Director named on the licence]. The Medical Director is not on the floor.
- Physical contact only with the guest's consent and as described in the Healer method. Follow the Anti-Harassment, Respect & Client Boundaries Policy (AUR-POL-04).

WHEN TO REFER TO A DOCTOR

Pause package design and suggest the guest speaks with their doctor first if:

- the health questionnaire (AUR-FRM-02) or screening checklist (AUR-FRM-03) flags a condition for any modality;
- the guest describes new, unexplained or worsening symptoms;
- the guest is pregnant, recently had surgery, or has a heart, lung, blood-pressure, seizure or circulation condition;

- the guest describes thoughts of self-harm or a mental-health crisis (follow AUR-SAF-04 and give emergency numbers: Ambulance 998, Police 999).

> **Script:** "Thank you for sharing that with me. Before we add [modality], I'd like you to check with your doctor. In the meantime, we can start with something gentle like breathwork."

3. Length and setting

- Length: **[30–45 min proposed]** for the first consultation. Review check-ins: [15–20 min proposed].
- Room: a quiet, private room [consultation room / breathwork and sound-healing room when free]. Door closed. Low light, low scent.
- Book the consultation as its own block in [Booking system — to be chosen] so the Healer and the room are not double-booked. The guest's first session follows immediately.

4. Before the consultation (10 minutes)

Step	Healer action
1	Read the intake form (AUR-FRM-01): goals, lifestyle, sleep, stress, how they heard about us
2	Read the health questionnaire (AUR-FRM-02) and the Host's screening notes (AUR-FRM-03)
3	Note any modality that is unsuitable today
4	Read the Host's arrival-state note (from the breathing ritual)
5	Check which units and sessions are free today and in the coming week

5. Consultation flow

Stage	Time (guide)	What happens
Welcome	2 min	Healer introduces themself, explains the consultation and that nothing is medical
Arrive	3 min	A short settling breath together: in for four, out for six
Listen	10–15 min	Guest describes what brought them in, what they want to feel, sleep, stress, energy, recovery
Assess	5–10 min	Energy and nervous-system assessment (section 6)
Identify the core issue	3 min	Healer reflects back the core concern in the guest's own words
Design	5–10 min	Healer proposes the package (section 7)

Stage	Time (guide)	What happens
Agree and hand over	2–5 min	Guest chooses; Healer walks the guest to the Host

Opening script

> "Welcome, [Name]. This time is about you. I'll ask a few questions about how you've been feeling, and then we'll design a plan to help your nervous system find its way back to calm. Nothing here is medical. If anything comes up that's for your doctor, I'll tell you."

Core-issue questions (choose, do not interrogate)

- "What made you reach out to us now?"
- "If our sessions worked perfectly for you, what would be different in a month?"
- "How are you sleeping? How do you feel when you wake?"
- "Where do you notice stress in your body?"
- "What usually helps you feel calm?"

6. Energy and nervous-system assessment

> [Healer method to be described by the Healing team.] This section must set out the assessment approach Healers use (for example observation of breath, posture and presentation; guest self-rating; any energy-healing practice), what is recorded, and the consent obtained for any touch.

Until the method is approved, Healers use the following minimum:

- guest self-rating from "wired" to "calm" on a scale of 1–10;
- observation of breathing pace and posture;
- the guest's top goal from the "Find your reset" list: Sleep deeper, Calm the stress, Recover faster, More energy, Skin & glow, Sharper focus, Beat jet lag.

7. Designing the package

Build from the sessions available at launch, checking each against the screening checklist.

Modality	Pillar	Duration	Often chosen for
Whole-Body Cryotherapy	Reset	3 min	Focus, mood, sleep
Cold Plunge (always Host-guided)	Reset	2–5 min	Calm under stress, alertness
Dry Float Bed	Reset	30 min	Zero-gravity rest
Salt Cabin	Reset	30 min	Breathing, skin, relaxation
Guided Breathwork	Reset	45 min	Downshift from stress, sleep, focus

Modality	Pillar	Duration	Often chosen for
Sound Healing	[Pillar to confirm]	[__ min]	Deep relaxation [Healing team to describe]
Red-Light Bed	Heal	20 min	Skin, recovery, mood
Infrared Sauna	Heal	40 min	Deep sweat, muscle tension
Hyperbaric Oxygen	Heal	60 min	Clarity after travel or burnout
Compression Recovery	Heal	30 min	Soreness, circulation

Design principles

1. **Start gently.** Most first-timers start with the infrared sauna or the red-light bed.
2. **Nervous system first.** A guest who arrives wired is offered calming sessions (breathwork, sound healing, dry float, salt cabin) before intense ones (cryotherapy, cold plunge).
3. **Use known pairings:** cold plunge with infrared sauna; compression with sauna or cryotherapy; salt cabin before dry float or breathwork.
4. **Keep it simple.** A first package usually has 2–3 modalities, a sequence and a frequency, for example "twice a week for four weeks".
5. **Check the timeline.** We have one unit of each machine. Design around real availability.
6. **Fit a product.** Map the package to a Single Reset, a package, or a Restore or Elevate membership, whichever is fairest for the guest.

8. Presenting the package and price

> **Script:** "Based on what you've shared, I'd suggest [modalities] over the next [__] weeks, about [__] times a week. Today we'd start with [session]. As a package this is AED [___]; or if you'd like to come regularly, the Restore membership at AED [___] a month includes 8 sessions. There's no pressure at all. You can simply start today and decide later."

- State prices as confirmed on the current price list. Never invent or round a price. Until prices are final: AED [___].
- Discounts only within the Roles, Responsibilities & Delegation of Authority document (AUR-GOV-02).
- If the guest declines, record "not now" and book today's session only.

9. Documenting

Before the guest leaves, the Healer records in the guest profile in [Booking system — to be chosen]:

Field	Entry
Date and Healer name	_____
Arrival state (1–10) and goal	_____
Core issue (guest's words)	_____

Field	Entry
Modalities not suitable / doctor referral advised	_____
Recommended package (modalities, sequence, frequency)	_____
Price quoted	AED [___]
Guest decision (accepted / thinking / declined)	_____
Next review date	_____

Notes are factual, brief and respectful. Guests may ask to see them (AUR-SAF-03). Never write a diagnosis.

10. Handover to the Host

The Healer walks the guest back to the Host and summarises today's plan in front of the guest. The Host then issues amenities and starts the first session (AUR-SOP-02).

11. Review and check-in schedule

When	What	Who
After the first session	Quick "how do you feel?" and note	Host
Next day	Follow-up message (AUR-SOP-03)	Host
After [2 weeks] or [4 sessions]	Short check-in; adjust the package	Healer
Every [4 weeks]	Package review	Healer
Quarterly	Guided protocol review (Elevate members)	Healer
Any time	Change in health, or the guest asks	Healer

12. Quality

The General Manager reviews [5] consultation records each month for completeness, boundaries and tone, and meets the Healing team [monthly] to refine the method and package templates.
