Laundry & Guest Amenities SOP

Document No. AUR-SOP-05 · Version 0.1 (Draft) · Owner: General Manager · Effective: [Date]

1. Purpose and scope

Every guest at The Aura Reset Center is given a robe, Aura-branded towels, Aura-branded clothing to wear in the centre and hotel-style Aura-branded slippers. Everything is laundered **in-house** on our own laundry machine(s). This SOP sets par levels, hygiene standards, the presentation standard and how damaged items and branded stock are handled.

It applies to all Hosts and to [in-house attendant / outsourced cleaner — to be decided]. It sits alongside the Cleaning & Sanitation Procedures (AUR-SAF-02) and the Health, Safety & Hygiene Policy (AUR-SAF-01).

2. Guest amenity kit

Item	Issued to	When
Robe	Every guest	On arrival, after the breathing ritual
Aura-branded clothing (top and bottoms)	Every guest who wishes to change	On arrival
Aura-branded towels (1 bath, 1 hand)	Every guest; extra for sauna, cold plunge and showers	On arrival and per session
Aura-branded slippers (hotel style)	Every guest	On arrival
Locker key or band	Every guest	On arrival

Sizes are offered discreetly. Ask: "Which size would feel most comfortable for you?" Never comment on a guest's size.

3. Par levels

Par level is the clean stock we hold on site, ready to issue, at the start of each day. Proposed levels below assume [__] guests a day and are to be confirmed by the General Manager after the first [4 weeks] of trading.

Item	Size	Par level (clean, on site)	In circulation total	Reorder point
Robe	S / M	[__]	[__]	[__]
Robe	L / XL	[__]	[__]	[__]
Bath towel (Aura-branded)	One size	[__]	[__]	[__]
Hand towel (Aura-branded)	One size	[__]	[__]	[__]

Item	Size	Par level (clean, on site)	In circulation total	Reorder point
Sauna / bench towel (Aura-branded)	One size	[__]	[__]	[__]
Guest top (Aura-branded)	XS / S / M / L / XL	[__] each	[__] each	[__] each
Guest bottoms (Aura-branded)	XS / S / M / L / XL	[__] each	[__] each	[__] each
Slippers (Aura-branded)	S / M / L	[__] pairs each	[__]	[__]
Breathwork / sound-healing blanket and covers	One size	[__]	[__]	[__]
Eye pillow covers	One size	[__]	[__]	[__]

> A simple rule until par levels are confirmed: hold clean stock of at least **three times** the number of guests expected in the busiest four hours of the day.

4. Slippers

Hotel-style Aura-branded slippers are **[single use, guest may take home / reusable, sanitised between guests — to be decided]**.

- **If single use:** issue a new sealed pair to each guest. Offer to let the guest take them home. Used pairs left behind go to general waste.
- **If reusable:** collect after each use, wash and sanitise at [__ °C] or with [product per AUR-SAF-02], dry fully, inspect and store in clean, labelled size bins. Discard any pair that is worn, stained or misshapen.

5. Laundry process

5.1 COLLECTION

- Collect used items from rooms, changing rooms and the lounge after every guest and at least every [hour].
- Used items go straight into a lined laundry bag or trolley at the point of use, never on the floor and never carried against the body.
- Items soiled with blood or body fluid go into a separate [water-soluble red] bag and are handled with gloves (AUR-SAF-02 section on body fluid spills).
- Keep used and clean laundry apart at all times. Clean items are never carried in a bag or trolley used for dirty items.

5.2 WASHING

Item	Wash temperature	Programme / chemical	Dry
Robes	[60 °C proposed]	[per supplier care label / detergent supplier]	Tumble, medium
Towels (all)	[60 °C proposed]	[detergent; no fabric softener on sauna towels]	Tumble, medium-high
Guest clothing (Aura-branded)	[40–60 °C per care label]	[detergent; inside out to protect the logo]	Tumble low, or line dry
Blankets and covers	[60 °C proposed]	[detergent]	Tumble, medium
Body fluid soiled items	[Hot wash, 71 °C or higher, or thermal disinfection programme — confirm]	Separate load	Tumble, high

- Do not overload the machine. Follow the machine manufacturer's load guide [load capacity __ kg].
- Items must be **fully dry** before folding. Damp linen grows bacteria and smells.
- Low-scent rule: use [unscented or lightly scented] detergent. No strong fragrance on items that go into the salt cabin, hyperbaric chamber or near guests with sensitivities.
- Clean the lint filter after every dryer load. Clean the washer door seal and detergent drawer [weekly].
- Never leave a wet load in the machine overnight unless the closing team uses the delayed-start programme set to finish by opening.

5.3 DAILY LAUNDRY RHYTHM

Time	Task	Who
Opening	Start first load (from previous evening)	Opening Host
Through the day	Keep one load running; fold dried loads within 30 minutes	Host not on the floor
Handover	Report stock below par (AUR-SOP-01)	Outgoing senior Host
Closing	Last load dried, folded and stored; used bags emptied	Closing Hosts

6. Folding and presentation standard

Our standard is a calm, hotel-quality presentation that reflects the brand.

- **Robes:** fold in thirds lengthways, then in half, logo facing up, belt tucked inside. Stack by size, largest at the bottom.
- **Bath towels:** fold in thirds lengthways, then in thirds again, folded edge facing out, logo visible on the front edge.
- **Hand towels:** in thirds, rolled for treatment rooms or flat for changing rooms.

- **Guest clothing:** top folded with logo centred on the front; bottoms folded in thirds; set placed together with size tag visible.
- **Slippers:** placed in pairs, toes facing the guest, on a clean towel or tray.
- Shelves are clean, dry and dust-free. No more than [__] items per stack. Clean stock is stored covered or in closed cabinets, at least [15 cm] off the floor.
- In the guest's room or changing area, lay out: robe on hook or folded on the bench, towels on the shelf, clothing set beside the robe, slippers on the floor in front.

7. Inspection, damage and stains

Inspect every item as you fold.

Condition	Action
Light stain	Re-wash once with stain treatment [product]
Stain remains after re-wash	Remove from guest use; move to "rag" stock (cleaning use)
Make-up, oil or lotion marks	Pre-treat, then wash; check before re-issue
Tears, pulled threads, holes	Remove from guest use; log in the damage log
Faded or cracked logo	Remove from guest use; log
Item lost or taken by a guest	Log; inform the General Manager if a pattern

DAMAGED AND WITHDRAWN ITEMS LOG

Date	Item and size	Problem	Action (re-wash / rag / discard)	Initials
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____

8. Stock counts and reorder of branded items

- A full count of every branded item is done **weekly** on [day] by the senior Host on the opening shift, and the result is sent to the General Manager.
- Reorder when stock in circulation falls to the reorder point in section 3. Branded items have long lead times; order early.
- Branded stock must match the brand guidelines (AUR-GOV-06): logo lockup, colours and approved fabrics. New designs are approved by the Founder & CEO.
- Purchases follow the Purchase Order & Purchasing Procedure (AUR-FIN-10).

Item	Supplier	Lead time	Last order date	Quantity ordered	Approved by
Robes	[Supplier]	[__ weeks]	_____	_____	_____

Item	Supplier	Lead time	Last order date	Quantity ordered	Approved by
Branded towels	[Supplier]	[__ weeks]	_____	_____	_____
Branded guest clothing	[Supplier]	[__ weeks]	_____	_____	_____
Branded slippers	[Supplier]	[__ weeks]	_____	_____	_____
Detergent and stain treatment	[Supplier]	[__ days]	_____	_____	_____

9. Lockers and lost property

- Check each locker is empty after every guest leaves.
- Log lost property with date, item and locker number. Keep valuables in the safe.
- Hold lost property for [30 days], then donate or dispose of it as decided by the General Manager.

10. Equipment care

- Laundry machine(s): [make and model]. Service contract: [supplier]. Faults are reported to the General Manager and logged like any other equipment fault (AUR-SOP-09).
- Keep the laundry area clean, dry and ventilated. Store detergents in their original, labelled containers, away from linen.
