Refreshments SOP

Document No. AUR-SOP-06 · Version 0.1 (Draft) · Owner: General Manager · Effective: [Date]

1. Purpose and scope

Refreshments are part of how guests arrive, rest and leave The Aura Reset Center. This SOP covers the refreshment station, the menu, food-safety basics, when we serve, allergens, use of copper mugs, cleaning and stock.

Hosts prepare and serve refreshments. Before serving any food or drink, every Host completes the basic food-safety training required by **Dubai Municipality** [confirm requirement, for example a Person in Charge or basic food hygiene certificate, and any permit needed to serve drinks to guests].

> We serve simple, non-alcoholic refreshments to guests. We do not cook. If the menu grows beyond drinks and pre-packed snacks, the General Manager confirms Dubai Municipality requirements first.

2. Menu [to confirm]

Item	Hot / cold	Notes
Still water	Cold / room temperature	Always available; offered before and after every session
Infused water (for example cucumber and mint, lemon) [to confirm]	Cold	Made fresh each morning and afternoon
Herbal teas [selection to confirm]	Hot	Caffeine-free options; [loose leaf / bags]
[Electrolyte drink — to confirm]	Cold	Offered after sauna and hyperbaric [per Elevé protocol — pending]
[Light snack, pre-packed — to confirm]	—	Labelled with allergens

Refreshments are complimentary for guests [to confirm]. Any items sold are priced at AED [___].

3. Serving moments in the guest journey

Moment	What we offer	Script
Arrival, after the breathing ritual	Water or a herbal tea	"Can I make you a herbal tea or some infused water?"
During the Healer consultation	Water or tea	Healer offers when the guest sits
Before heat or cold sessions	Water	"A glass of water before we start will help you feel your best."
Post-session rest	Herbal tea or infused water, in a copper mug where suitable	"Here's your [tea]. Take all the time you need."

Moment	What we offer	Script
Farewell	A reminder to hydrate	"Drink plenty of water this evening."

- Hydration matters most around the infrared sauna, hyperbaric oxygen and cold sessions. Follow any modality-specific guidance [per Elevé protocol — pending].
- Do not serve hot drinks inside treatment rooms or the salt cabin. Hot drinks are served in the lounge only.

4. Station set-up (opening)

1. Wash hands. Wipe the counter with food-safe sanitiser [product].
2. Fill and switch on the hot water dispenser or kettle [model].
3. Prepare fresh infused water in a clean, covered jug. Label with the time made. Discard after [4 hours].
4. Lay out teas in labelled, closed containers, oldest stock at the front.
5. Set out clean copper mugs, glasses, cups, saucers, spoons and napkins.
6. Place the **allergen card** on the station.
7. Check the fridge temperature and record it (section 7).
8. Check stock levels against par (section 9).

5. Food-safety basics

These follow general Dubai Municipality food-hygiene principles. The General Manager confirms full requirements before opening.

- **Handwashing:** before preparing drinks, after touching money, phones, laundry or cleaning, and after using the toilet.
- **Personal hygiene:** clean uniform, hair tied back, no strong fragrance, cuts covered with a blue plaster.
- **Illness:** a Host with vomiting, diarrhoea or fever does not handle refreshments and tells the senior Host.
- **Temperature:** fridge at 1–5 °C. Cold drinks and cut fruit kept chilled.
- **Dates:** every opened item labelled with the date opened. First in, first out. Throw away anything past its use-by date.
- **Water:** use only [filtered / bottled] water for drinks and ice.
- **Ice:** scooped with a clean scoop, never with a glass or hands. Scoop stored outside the ice.
- **Separation:** cleaning chemicals are never stored above or beside refreshments.

6. Allergens

- Keep a written allergen list for every item on the menu (including herbal blends, which may contain nuts, seeds, citrus or flowers).

- Ask every new guest about allergies at intake (AUR-FRM-01). The Host checks the guest profile before serving.
- When a guest tells you about an allergy, offer only items you are sure are safe. If in doubt, offer plain water.
- Never guess. Never remove an ingredient from a mixed product and serve it as safe.
- If a guest shows signs of an allergic reaction (swelling, rash, difficulty breathing), follow AUR-SAF-04 and call **998**.

Menu item	Contains / may contain	Checked by	Date
[Herbal tea 1]	_____	_____	_____
[Herbal tea 2]	_____	_____	_____
[Infused water]	_____	_____	_____
[Snack]	_____	_____	_____

7. Fridge temperature log

Date	Time (opening)	Temp (°C)	Time (closing)	Temp (°C)	Initials
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____

If the fridge is above 5 °C, move items to [backup cooler], tell the senior Host and discard anything that has been above temperature for more than [2 hours].

8. Copper mugs

Copper mugs are part of the Aura ritual and are also sold in our retail range (AUR-SOP-07).

- Use copper mugs for **room-temperature or cool water and infused water** [confirm with the supplier whether the mugs are lined, and which drinks are suitable].
- Do **not** use unlined copper mugs for acidic drinks (citrus, vinegar-based, fruit juice) or for hot drinks, unless the supplier confirms the mug is lined and suitable.
- Hand-wash only in warm water with mild detergent. No dishwasher, no abrasive pads. Dry at once to prevent marks.
- Polish [weekly] with [approved copper cleaner or lemon and salt, then rinse well].
- Remove from service any mug with a dented rim, loose handle or worn lining.

9. Cleaning and stock

9.1 CLEANING

Frequency	Task
After each use	Wash cups, mugs and glasses; wipe spills at once
Every 2 hours	Wipe station counter and handles; refresh infused water if needed
Closing	Empty and clean jugs; descale kettle [weekly]; wipe fridge handles; discard opened perishables past date; mugs dried and stored
Weekly	Clean the fridge inside; check all dates; polish copper

Use food-safe products only, from the approved list in AUR-SAF-02.

9.2 STOCK AND PAR LEVELS

Item	Par level	Reorder point	Supplier	Initials (weekly count)
Herbal tea [each type]	[__]	[__]	[Supplier]	_____
Fruit and herbs for infused water	[__] per day	Daily	[Supplier]	_____
Filtered / bottled water	[__]	[__]	[Supplier]	_____
Cups, glasses, copper mugs	[__]	[__]	[Supplier]	_____
Napkins	[__]	[__]	[Supplier]	_____

- Receive deliveries away from guests. Check dates and packaging before accepting.
- Purchases follow AUR-FIN-10.
