Tax Invoice, Receipt and Credit Note Templates

Document No. AUR-FIN-11 · Version 0.2 (Draft) · Owner: General Manager · Effective: [Date]

> Important: issue documents titled "Tax Invoice" or "Tax Credit Note" only after The Aura is registered for VAT with the UAE Federal Tax Authority and holds a TRN. Until then, issue a plain "Invoice" or "Receipt" with no VAT charged and no TRN shown. Templates to be checked by a UAE tax adviser.

1. Rules

- VAT is charged at the standard rate of 5% on taxable supplies once registered. No medical treatments are offered at launch; the tax adviser to confirm the VAT treatment of any clinical services if they are added in future (for example, IV nutrient therapy, subject to DHA licensing), which may differ.
- All amounts in AED. Where a foreign currency is accepted, show the AED equivalent and the exchange rate used.
- Invoice numbers are sequential with no gaps; voided documents are kept, not deleted.
- A full tax invoice is issued for supplies to VAT-registered businesses (for example, corporate partners) and on request. A simplified tax invoice may be issued for walk-in guests where allowed [tax adviser to confirm threshold].
- Memberships billed monthly receive a tax invoice each billing cycle.
- Credit notes reference the original invoice; they never alter it.
- Records kept for at least the period required by UAE tax law.

_____	_____	_____

5. Pre-registration invoice (until TRN issued)

Use the tax invoice layout above with these changes: title "INVOICE"; remove the TRN and VAT columns; add the line "VAT not charged: supplier not yet registered for VAT." Switch to the tax invoice template from the effective date of VAT registration.
