PRIVATE INVESTMENT STRATEGY · 5-YEAR PLAN · CONFIDENTIAL

# Two studios in cash today. A *AED 2.2M portfolio* by Year 2 — and a family home after that.

A phased plan to grow roughly AED 1M of capital into a four-studio, income-producing portfolio in Jumeirah Village Triangle, using the bank's money for the second half, then putting that portfolio to work on the mortgage of your family townhouse.

THE STRATEGY

## Three moves over five years

You start with no debt and two rent-paying studios. Once their value has grown, we borrow against them to buy two more. Then, with four studios paying rent, you buy the home.

### Year 0 · Buy

2 furnished studios in Al Manara Tower, JVT, fully in cash.

Cash in: AED 1,090,560

### Years 1–2 · Earn

Debt-free rent of ~AED 6,525 a month while values rise.

Net 7.8% on price

### Year 2 · Release

Equity release on both studios funds the down payments on 2 more.

Portfolio ≈ AED 2,205,000–2,420,000

### Year 3–5 · Home & scale

Townhouse purchase; the studios' surplus covers part of its mortgage.

2nd release possible by Year 5

MODELLING ASSUMPTIONS

# Every number below rests on these

| Assumption | Value | Basis |
|---|---|---|
| Purchase price per studio | AED 500,000 | Al Manara listings: AED 480K–550K; recorded sales AED 455K (Sep 2025), AED 525K (Mar 2026) |
| Studio size / service charge | 450 sqft · AED 13/sqft = AED 5,850/yr | Your figure; confirm on DLD service-charge index |
| Rent (furnished / unfurnished) | AED 50,000 / 45,000 a year | Al Manara asks: AED 42K–50K; Property Finder average ~AED 40.6K–46K |
| Botany management | 10% of yearly rent | All-inclusive; see fee section |
| Furnishing (one-off) | AED 10,000 per studio | Charged separately |
| Mortgage rate | 4.5% fixed · 25 years | CBUAE base rate 3.90% after 17 Sep 2026 hike, held 28 Oct 2026; fixed offers ~4.0–4.6%. Stress-tested at 5.0% |
| Bank lending (expat) | 80% first home · 60% each further / investment property | CBUAE mortgage regulations |
| Equity release | 60% of bank valuation per studio | Most consistent bank practice for investment property; 80% shown as upside |
| Buying costs (cash) | ~7.1% · AED 35,280 | DLD 4% + AED 580 · trustee AED 4,200 · agency 2% + VAT |
| Extra costs (mortgage) | 1.25% of loan + ~AED 3,290 | Bank processing 1% · DLD mortgage registration 0.25% + AED 290 · valuation ~AED 3,000 |
| Capital growth | 5% a year (floor) · 10% a year (expected) | 5% is the lowest average we would plan around; we expect at least 10% (see the JVT case) |
| Rent growth | 0% | Deliberately flat: Dubai asking rents softened in Q3 2026 |

### Market evidence: Al Manara Tower (Property Finder, October 2026)

| Listing | Size | Price / rent | Per sqft |
|---|---|---|---|
| For sale · high floor | 380 sqft | AED 480,000 | 1,263 |
| For sale · pool facing, vacant | 448 sqft | AED 500,000 | 1,116 |

| To rent · fully furnished | 438 sqft | AED 44,000 / yr | — |
| To rent · furnished, vacant | 379 sqft | AED 50,000 / yr | — |

Building averages: sale ~AED 510K (range 480K–580K), rent ~AED 40.6K/yr (range 42K–70K). Furnished at AED 50K is the top of today's range, which is why we also show AED 45K. Al Manara trades at ~AED 1,100–1,250/sqft against a JVT studio median of ~AED 1,830–1,940/sqft for newer stock, a built-in value gap.

2

PHASE 2 · END OF YEAR 2 · EQUITY RELEASE

# Borrow against the two studios to buy two more

After two years the studios are worth more. The bank lends against today's valuation, not what you paid, and that cash becomes the 40% down payment on two more studios. Your own capital stays the same; the portfolio doubles.

| Step (AED) | Floor 5% | Expected 10% |
|---|---|---|
| Bank valuation per studio, Year 2 | 551,250 | 605,000 |

**AED 2.42M**

YOUR CASH STILL TIED UP

Upside case: if a bank lends 80% on the first studio (treating it as your first property), the release rises to ~AED 755,523 and ~AED 202,861 is left over. But it would use up your 80% first-property tier, which matters for the townhouse (Phase 3), so we do not plan on it.

THE MONTHLY PICTURE

| **Net in your pocket (5% case)** | **+5,696** | **+68,356** |
| Net in your pocket (10% case)* | +4,979 | +59,752 |

*In the 10% case the bank values the studios higher, so the loans are larger and monthly surplus is slightly lower, but your equity is much higher. Rent is held flat at AED 50,000; every RERA-permitted increase goes straight to your surplus.

✦ Every studio pays its own mortgage 2.3× over, with a surplus left

THE EQUITY BUILD-UP

# Five years, two growth paths

### Floor case · 5% a year

| Year | Value | Debt | Equity | Releasable @60% |
|---|---|---|---|---|
| Year 0 | 1,000,000 | 0 | 1,000,000 | 600,000 |

| **Year 5 ★** | **2,552,563** | **1,230,973** | **1,321,590** | **300,565** |

### Expected case · 10% a year

| Year | Value | Debt | Equity | Releasable @60% |
|---|---|---|---|---|
| Year 0 | 1,000,000 | 0 | 1,000,000 | 600,000 |
| Year 1 | 1,100,000 | 0 | 1,100,000 | 660,000 |
| **Year 2 ★** | **2,420,000** | **1,452,000** | **968,000** | **0** |
| Year 3 | 2,662,000 | 1,419,834 | 1,242,166 | 177,366 |
| Year 4 | 2,928,200 | 1,386,190 | 1,542,010 | 370,730 |
| **Year 5 ★** | **3,221,020** | **1,351,000** | **1,870,020** | **581,612** |

Releasable = 60% of value minus outstanding debt.#9733; = release years. Releasable = 60% of value minus outstanding debt. By Year 5 a second release of AED 300,565–581,612 becomes available, enough to fund more units or part of the home's down payment.

3

PHASE 3 · THE FAMILY HOME

# Can the studios help pay for a AED 3.5M townhouse?

Yes, partly. But the order of the loans matters more than any other decision in this plan. A bank lends up to 80% on your first home, and only 60% on each property after that. Once the studios carry a mortgage, the townhouse is likely to be treated as an additional property.

| AED 3.5M townhouse | Route A · home after the studio release (60% loan) | Route B · home mortgaged before the release (80% loan) |
|---|---|---|
| Bank loan | 2,100,000 | 2,800,000 |
| Down payment | 1,400,000 | 700,000 |
| Buying + mortgage costs | 247,820 | 256,570 |
| **Cash needed for the home** | **1,647,820** | **956,570** |
| Monthly mortgage (4.5%, 25 yrs) | 11,672 | 15,563 |
| At 5.0% stress rate | 12,276 | 16,369 |
| Total borrowing incl. 4 studios | 3,423,000 | 4,123,000 |

### How much of the home loan the studios cover

Route A · AED 11,672/month

2 cash studios (before release): AED 6,525 · 56%

4 studios (5% case): AED 5,696 · 49%

Route B · AED 15,563/month

2 cash studios: 42% · 4 studios (5%): 37% · 4 studios (10%): 32%

### The honest answer

The studios cover roughly **49%** of the home loan on Route A and **37%** on Route B, before any rent increases. They will not pay the whole mortgage on their own; your business income covers the rest. Note that the equity release grows your wealth, not your monthly income: two debt-free studios actually leave more cash each month than four mortgaged ones.

Route B saves about **AED 691,250** of cash on the home but needs ~AED 4,123,000 of total borrowing, above today's AED 3.5M pre-approval. Route A fits within it but needs ~AED 1,647,820 in cash for the home.

✦ Decide the home's timing with the bank before the Year-2 release; it is worth ~AED 690K

Before selling costs and tax-free (no property or income tax on rent for individuals in Dubai). Year-3 total return on cash still invested, the first year after the release: 20.9% (5%) to 34.0% (10%).

WHY JVT

# A value gap with a catalyst next door

### Skylight Mall: the stalled mall is back

Nakheel's long-delayed Al Khail Avenue Mall site on Al Khail Road has been relaunched by Dubai Retail (Dubai Holding) as **Skylight Mall**: about 1.3M sqft, 360+ stores, opening scheduled for **2027**, and explicitly positioned to serve JVT, Jumeirah Islands and The Springs. It is walking distance from Al Manara Tower. Its opening lands right around our Year-2 valuation, when the bank values your studios for the release.

Announced 6 Oct 2026 · Khaleej Times · Gulf News

### Infrastructure

- Al Khail Road upgrade (AED 700M) completed in 2024.
- Hessa Street Phase II (AED 689M, awarded Feb 2026): doubles capacity to Sheikh Mohammed bin Zayed Road, with a JVC tunnel and ramp.
- Dubai Metro Gold Line (approved Apr 2026): via Al Barsha South and JVC, target 2032.
- Airport Express line along Al Khail Road with a JVC station (tendered Apr 2026).

### Families and schools

Sunmarke School (British + IB) and Arcadia School are inside JVT; JSS International (JVC) and Nord Anglia International School (Al Barsha South, KHDA Outstanding) are around 12 minutes away. Family demand keeps occupancy high across the community.

### Developers still investing

38 new projects are underway in JVT, including Binghatti Luxuria and Danube Fashionz in District 4, the same district as Al Manara, plus ELAR1S, Guzel Towers and Sol Levante. Large plots are still being built out, and new branded stock resets the area's price per sqft upwards, pulling older towers like Al Manara with it.

### Why we expect 10% rather than 5%

Al Manara studios trade at ~AED 1,100–1,250/sqft. Newer JVT studios record a median of ~AED 1,830–1,940/sqft. That gap, plus a super-regional mall opening on the doorstep in 2027 and better road and metro links, is the case for valuations rising faster than the 5% floor, and for a stronger bank valuation at the Year-2 release.

THE ALTERNATIVE

# If JVT isn't for you: Golf Vita, Damac Hills

A greener, gated golf community with strong rental demand. The trade-off is price: units of the same size cost about 28% more, so the yield is lower and AED 1M buys one unit in cash, not two.

| Per unit (AED) | JVT · Al Manara | Golf Vita (your SC estimate) | Golf Vita (listed SC) |
|---|---|---|---|
| Size | 450 sqft studio | ~440 sqft 1-bed | ~440 sqft 1-bed |
| Price | 500,000 | 640,000 | 640,000 |
| Rent / year | 50,000 | 52,000 | 52,000 |
| Service charge / year | 5,850 | 5,720 (13/sqft) | 9,240 (~21/sqft) |
| Net income | 39,150 | 41,080 | 37,560 |
| All-in cash | 545,280 | 693,820 | 693,820 |
| **Net yield on price** | **7.8%** | **6.4%** | **5.9%** |
| Net return on cash | 7.2% | 5.9% | 5.4% |

Golf Vita listings Oct 2026: AED 650K–669K asking (432–438 sqft); recorded 2026 sales AED 580K–700K; rents AED 48K–50K listed. Listings quote service charges of ~AED 20.7–21.8/sqft; confirm the official DLD figure before committing.

✦ JVT wins on yield and on the number of units your capital buys

STRESS TEST

# What if things go against us?

| Four-studio portfolio, 5% case | Net / year | Net / month |
|---|---|---|
| Base case | 68,356 | 5,696 |
| Rates rise to 5.0% | 63,790 | 5,316 |
| Rent falls to AED 45,000 | 50,356 | 4,196 |
| One month vacant per studio per year | 53,356 | 4,446 |

In every case the portfolio stays cash-positive: the rent still pays all four mortgages, service charges and management.

RISK ANALYSIS

# The real risks, and how we manage them

| Risk | What it means | Mitigation |
|---|---|---|
| Supply pipeline | JVC/JVT is one of five districts holding ~45% of Dubai's under-construction stock, mostly studios and 1-beds | Buy older stock at ~40% below new-build per sqft; furnished units compete on quality, not price |
| Softer rents | Dubai asking rents fell in Q3 2026 (JVC ~10% year on year) | Plan holds rent flat and stays positive at AED 45K; existing leases are protected by RERA |
| Interest rates | Rates rose in Sep 2026 and may rise again | Fix for 3–5 years at the release; positive even at 5.0% |
| Bank valuation | A low valuation shrinks the Year-2 release | Release only when values support it; the plan still works at the 5% floor |
| Equity-release terms | Banks differ on release LTV and seasoning | Pre-check with 2–3 banks in Year 1; plan assumes 60%, not 80% |
| Loan order | Releasing first may cut the home loan to 60% | Agree the home's timing with the bank before releasing (Route A vs B) |
| Mall timing | Skylight Mall has no fixed opening date | The plan never depends on it; it is upside on top of the 5% floor |

SAHILL'S RECOMMENDATION

## Start debt-free, then let the bank build the second half.

Hashim, buy the two Al Manara studios in cash now. You become the strongest buyer in the building, you earn about AED 6,525 a month from day one, and you carry zero debt while JVT's next chapter (Skylight Mall in 2027, the road and metro upgrades) plays out.

At the end of Year 2 we take the equity release and buy two more studios. Same capital, double the portfolio: around AED 2.2M at the floor, AED 2.4M if JVT moves as we expect, and every unit paying its own mortgage.

Before that release, we sit down with your bank and fix the order for the townhouse. If the bank confirms it will lend 80% on the home only while the studios are debt-free, we mortgage the home first and save you around AED 691,250 in cash. Either way, the studios' surplus covers roughly a third to half of the home loan, and the Year-5 release adds more firepower.

Every unit is managed end-to-end by Botany: tenants, maintenance, cheques and renewals. You own the assets; we run them.

FEES

## One fee, nothing hidden

### 10%

of yearly rent: a single all-inclusive management fee, no hidden add-ons. It covers tenant sourcing and vetting, Ejari contracts and renewals, all maintenance coordination, rent and cheque collection, and the net deposited straight to your account.

### AED 10K

one-off furnishing per studio, charged separately: furniture, appliances and styling to let at the furnished rate. Every owner also gets the Botany Properties app: live yield and equity, documents, maintenance records and refinance on demand.
